

NATURE'S GREAT DISINFECTANT.

Let the Sunlight Reach Every Corner of the House and Destroy the Germs.

Nature's great disinfectant is sunlight. It is a most interesting fact that this wonderful light, which promotes the growth of useful plants and sustains animal life, at the same time destroys by its very brightness all sorts of germs which are brought in contact with it. It is this fact alone which renders the earth inhabitable. Germs develop with such marvelous rapidity that they would quickly overwhelm us by their very numbers if not constantly destroyed by the sun. A little computation will readily show this. Some germs are capable of such rapid multiplication that they may double every fifteen minutes under favorable conditions of temperature and food supply. Estimate the number of germs which might be produced in a single day of twenty-four hours, or ninety-six doublings. The number would be more than thirty-two thousand billion billions, or sufficient to cover eighty thousand square miles a foot deep, or fill a space of more than fifteen cubic miles. The increase of a minute organism occupying a cubic space of not more than one twenty-thousandth of an inch to such prodigious magnitude is beyond comprehension, and practically cannot occur; for while the germ may grow at this immense rapidity for a short time, the poisons which it produces become destructive to itself. The material upon which it feeds is also exhausted, so that its growth ceases.

Doubtless all have noticed the fact that mold grows during the night and in dark, damp cellars. Bright sunlight quickly destroys germs, mold, and other parasitic organisms. Diffused daylight does not act nearly so rapidly, but accomplishes in the course of a few hours what bright sunlight is capable of doing in a few minutes. It is clearly evident, then, that in order that our houses should be kept free from germs, they, like our bodies, should be made full of life. The shutters should be opened, the curtains raised, and the light admitted to every room in the house, closets included, so that the disinfecting power of light may be exercised in every nook and corner of the dwelling.

Occupation and Tuberculosis.
The influence of occupation as a cause of consumption is shown by Dr. J. M. French in the Medical Examiner.

At least four classes of employments have a tendency to favor the development of tuberculosis. They are:

1. Sedentary employments in ill-ventilated apartments, involving confinement in impure air, and other unwholesome conditions. This class of occupations is typified by the so-called sweatshops for the manufacture of various articles of clothing.
2. Employments which necessitate the inhalation of irritating dusts and noxious vapors. Such are those of stone-cutters, bleachers, matchmakers, file-cutters, grinders, engravers, etc.
3. Employments which involve the overuse or abuse of certain muscles. These are athletes, prize fighters, gymnasts, wrestlers, professional bicycle riders, ball players, etc., a large proportion of whom die eventually of phthisis.
4. Employments which involve undue familiarity with intoxicants. These are those connected with manufacture and sale of wine, beer and the various classes of alcoholic beverages. Tatham's tables show that, taking the average mortality from consumption at one hundred, that of publicans is one hundred and forty, of brewers one hundred and forty-eight and of bartenders two hundred and fifty-seven.

Overcoming Hereditary Tuberculosis.
Much is being said nowadays respecting the out-of-door treatment of tuberculosis, a disease which, while rarely directly transmissible by heredity, is one of the predispositions to which is in the highest degree hereditary. It has been clearly shown by numerous experiments in various parts of the United States that out-of-door life with regular hygienic habits, irrespective of altitude or special climatic advantages, is capable of so aiding the natural powers of the body as to effect a cure of this formidable malady without the use of drugs of any sort.

Tuberculosis is a disease of civilization. It scarcely exists among savages who live in the primitive state, but quickly appears among such people when the habits of civilization are adopted, especially the indoor life. The South American monkey and the North American Indian alike fall victims to this disease when shut away from the sunlight and active exercise out of doors.

The time is not far distant when every large city will find it necessary to provide conveniences for the application of this simple curative measure, not only for the purpose of rescuing the victims of pulmonary tuberculosis from the certain fate which awaits them, but as an essential measure for protecting the public health.

Health Observations Abroad.
One of the most pitiful sights in England is to see young women acting as barmaids in the public drinking places, and to see women elbowing their way to the bar and then stand there, shoulder to shoulder with

a crowd of coarse, half-drunken men, and with them partake freely of intoxicating liquor. Unfortunately, this painful sight is not at all rare, and it is quite common to see drunken women reeling about in the streets. What a sad commentary on our modern civilization.

In Copenhagen it is the custom to dress young schoolgirls so that their arms are almost or entirely bare, even in weather when Americans appreciate their overcoats. This practice necessarily chills the blood, and tends to produce congestion of the internal organs, and undoubtedly lays the foundation for colds, pneumonia and tuberculosis.

Tuberculosis is making sad havoc among the urban population of Norway. It is pitiful to note how this plague is decimating this once hardy race. Sedentary life, indoor confinement and defective ventilation are undoubtedly the most prolific causes, for fifty per cent of the tubercular cases make a satisfactory recovery when they are sent to some outdoor sanitarium; and what will cure a consumptive would certainly have prevented the onset of the disease.

The liquor curse is undermining the physical stamina of the Swedish race. Liquor drinking among the working classes is almost universal. One-third of their population die before the age of twenty-one, and one-fourth of those who live, are rejected from military service on account of physical disqualifications.

An American Puzzle.

Dr. Lorenz, of bloodless surgery fame, cannot understand how Americans enjoy fair health on a diet that would depopulate any other country.

"The pies, puddings, sauces and innumerable other dishes, most of which are unhealthful in the extreme, partaken of by young and old alike in America, have caused me to wonder," says Dr. Lorenz, "that the people are not physically and constitutionally wrecked."

The secret is to be found in the simple, hardy lives of the forefathers of the present generation. Their vigorous health has bestowed upon the grandchildren wonderful constitutional vigor. But the change from the simple to the luxurious is working havoc. The rising generation have squandered the constitutional capital bequeathed to them and are rapidly becoming physical bankrupts. A halt must be called and the simple habits resumed or the prophecy of Dr. Lorenz will surely be realized.

BREAKFAST BREADS.

Corn Puffs.—Beat together two and one-half cups of unskimmed milk and the yolks of two eggs, until thoroughly blended. Add two cups of best granulated corn meal. Beat the batter thoroughly; stir in lightly the whites of the eggs, beaten to a stiff froth; turn into heated irons, and bake.

Corn Dodgers.—Scald one cupful of best granulated corn meal, into which a tablespoon of sugar has been sifted, with one cup of boiling milk. Beat until smooth, and drop on a griddle, in cakes about one inch in thickness, and bake slowly for an hour. Turn when brown. If preferred, the baking may be finished in the oven after the first turning.

Hominy Gems.—Beat one egg until very light, add to it one tablespoonful of thick sweet cream, a little salt, if desired, and two cups of cooked hominy (fine). Thin the mixture with one cupful or less of boiling water until it will form easily, beat well, and bake in heated irons.

Sally Lunn Gems.—Beat together the yolk of one egg, two tablespoonfuls of sugar, and one cupful of thin, ice-cold, sweet cream. Add slowly, beating at the same time, one cup and two tablespoonfuls of sifted Graham flour. Beat vigorously, until full of air bubbles, add the white of the egg beaten stiffly, and bake in heated irons.

Cream Corn Cakes.—Into one cup of thin cream stir one and one-half cups of granular corn meal, or enough to make a stiff batter; add one-third of a teaspoonful of salt; beat well, drop into heated irons, and bake.

Cream Graham Rolls.—To one-half cup of cold cream add one-half cup of soft ice water. Make into a dough with three cups of Graham flour, sprinkling in slowly with the hands, beating at the same time, so as to incorporate as much air as possible, until the dough is too stiff to be stirred; then knead thoroughly, form into rolls and bake.

Hoe-cake.—Scald one pint of white corn meal, with which, if desired, a tablespoonful of sugar and one-half teaspoonful of salt have been mixed, with boiling milk, or water enough to make a batter sufficiently thick not to spread. Drop on a hot griddle, in large or small cakes as preferred, about one-half inch in thickness. Cook slowly, and when well browned on the underside, turn over. The cake may be cooked slowly until well done throughout, or, as the portion underneath becomes well browned, the first brown crust may be peeled off with a knife, and the cake again turned. As rapidly as a crust becomes formed and browned, one may be removed, and the cake turned, until the whole is browned. The thin, water-like crusts are excellent served with hot milk or cream.

ANOTHER CONFERENCE

This Nation Has Done Its Duty in Premises.

SUBMITTED TO DEPARTMENT.

Washington April 18.—Inquiry into the status of the negotiations initiated by President Roosevelt looking to a second peace conference, suggested by Lord Lansdowne's reference to the subject in the British parliament, develops that the state department here has completed its functions so far as this matter is concerned, at least for the present, having remitted it to the executive council of The Hague tribunal. This was done, notwithstanding an effort on the part of the German government to outline the program of subjects to be considered

at the second conference. For some reasons the state department would have been pleased to have acceded to this German suggestion but it was concluded that to accept it would be to jeopardize the success of the undertaking. It was hoped that conflicting views of the great nations as to the limit that is to be placed on the conference could be more easily reconciled by this active counsel, whose recommendations would be free from any suggestion of leaning toward the interests of any one power and even the peculiarly favorable situation of the United States might not suffice to prevent the suspicion on the part of some of the powers that the state department's suggestions in the shape of a program were entirely disinterested. So the whole matter has been submitted by the state department to the executive council, with the full approval of all of the powers addressed by President Roosevelt, and it is expected that very soon after the conclusion of the present war the council will issue a call for the second conference.

GIVE UP ALL HOPE OF SETTLING STRIKE

Chicago, April 19.—After a conference held in his office late this afternoon with representatives of the Teamsters' union, Mayor Dunne announced that he had practically given up all hope of settlement of the trouble.

"I will hold conferences tomorrow," said the mayor, "with representatives of both sides, but I have no idea at the present time that anything will result from the meetings."

There were numerous disturbances in the streets during the day and others around the freight houses. Several non-union men on their way home were followed by strike sympathizers, one of them being beaten so badly

that he may die. The most serious disturbance of the day occurred late in the afternoon at the intersection of State and Madison avenues. A mob numbering fully 2,000 gathered about a State street cable car on which James Jackson and Moses Flood, two colored men who had driven a wagon to Montgomery Ward & Co.'s, were riding. Stones and sticks were hurled at the car, and in a twinkling every window in it was smashed. Two policemen rushed into the car and in order to protect the colored men from the crowd placed them under arrest. A riot call was sent to the central station, and it required twenty officers, who responded to drive away the crowd.

CANNOT FIX LIMIT ON HOURS OF LABOR

Washington, April 19. — In an opinion by Justice Peckham the supreme court of the United States held to be unconstitutional the New York state law making ten hours a day's work and sixty hours a week's work in bakeries in that state. Justice Harlan, White, Day and Holmes dissented and Justice Harlan declared that no more important decision had been rendered in the last century.

The opinion was handed down in the case of Lockner vs. The State of New York, and was based on the ground that the law interferes with the free exercise of the rights of contract between individuals. The court of appeals of the state upheld the law and affirmed the judgment of the trial court holding Lockner guilty. Judge Parker wrote the opinion of the New York court of appeals supporting the law, and the court divided four to three on the question of validity.

The law involved in the case is section 10 of the New York state labor law prescribing the hours of labor in bakeries in the state. Lockner is a baker in the city of Utica, and was found guilty of permitting an employee to work in his bakery more than sixty hours in a week and fined \$50. The judgment was affirmed by the New York appellate courts.

Today's opinion dealt entirely with the constitutional question involved. Justice Peckham said that the law is not an act merely fixing the number of hours which shall constitute a legal day's work, but an absolute prohibition on the employer permitting under any circumstances more than ten hours' work to be done in his establishment. He continued:

"The employee may desire to earn the extra money which would arise from his working more than the prescribed time, but this statute forbids the employer from permitting the employee to earn it. It necessarily interferes with the right of contract between the employer and employee concerning the number of hours in which the latter may labor in the bakery of the employer. The general right to make a contract in relation to his business is part of the liberty of the individual protected by the 14th amendment to the federal constitution. Under that provision no state can deprive any person of life, liberty or property without due process of law. The right to purchase or to sell the labor is part of the liberty protected by this amendment unless there are circumstances which exclude the right."

Neutrality Question Schemes of Reform

London, April 18.—In the absence of further information regarding the position of the Russian and Japanese fleets the London morning papers are keenly discussing the neutrality question, for the most part in a strong pro-Japanese tone. The Morning Post takes the milder view that Kamranh Bay is a mere fishing port and unable to provide coal or other supplies to the Russian squadron, which probably took shelter there to replenish from its own coalters and that, though a technical breach of neutrality had been committed the French authorities could hardly be held responsible unless it can be proven that they had previous knowledge of Rojstvensky's intentions.

The Daily Mail's correspondent at Singapore gives a further report from the North German Lloyd steamer Prinz Heinrich that on Friday, April 14, the Russian cruisers Dmitri Don-skoi and Blon were scouting outside the bay, while a tug was bringing colliers alongside of warships which were coaling and that many boats were transferring provisions to Russian vessels.

The correspondent at Hong Kong of the Daily Mail reports that the steamer North Anglia late Friday night sighted a strong fleet of cruisers off Bombay reef, steering south and using search lights. The North Anglia was unable to distinguish the nationality of the cruisers.

St. Petersburg. — The reform elements of the various persuasions are busily elaborating schemes of new governmental machinery, but without co-ordination, and unless the various elements come together in some such organization as that proposed by the barristers at their recent congress here the projected reform is likely to suffer from the multiplicity of views and aims. Three distinct assemblies of liberals were in session in St. Petersburg—the engineers, the literatures and a group attempting to form a new moderate constitutional party—and today there will be the opening meeting of an assembly of provincial journalists. The literatures' session was barren of results, the meeting of engineers which was held privately was discovered and dispersed by the police before it passed the preliminary stage, and the moderate constitutionalists, after a two days' session, were unable to agree on a program to which it wished to commit the new party. The meetings will be held to endeavor to formulate a working plan before the congress of modern zemstvos early in May.

Fifth Loan Arranged.
London, April 19.—The correspondent at Tokio of the Standard says that a fifth domestic loan of \$50,000,000 has been satisfactorily arranged on the same terms as the fourth.

Admiral Schwartz Dead.
St. Petersburg, April 15.—Admiral Schwartz, who assisted on board the frigate Niagara in laying the first Atlantic cable in 1857, is dead. Admiral Schwartz, who was the author of several books on technical subjects, visited America several times.

FALSE ALARM OF FIRE.
Four Newsboys Are Crushed to Death in Stamped.
Indianapolis, Ind., April 19.—Frenzied by a false alarm of fire, several hundred eager newsboys, struggling to obtain their share of free tickets to a local theater, which were being distributed by a traveling representative of a patent medicine company, stampeded in a narrow stairway in the Masonic Temple tonight, crushing the life out of four boys and seriously injuring several others.

HER HEART WAS TOUCHED.

Heiress Had Scheme to Help Unfortunate Foreign Noblemen.

"No," said the heiress, "I have made up my mind that I shall not marry the Count. I cheerfully admit that I should like to have a title. And I rather like the Count. He is handsome, dignified, courteous and good-natured, and I think he would be liberal with my money if he had it. But, you see, there are so many other impetuous noblemen and my heart bleeds for them all. They have been brought up to marry American heiresses to go round—and some of them won't go. Something ought to be done for these unfortunate people."

"And what do you propose to do?"
"Why, I thought of establishing a free employment agency to aid the unfortunate nobleman to get work when, owing to his inability to marry an heiress, he is forced to look for a job."

All Up-to-Date Housekeepers
use Defiance Cold Water Starch, because it is better, and 4 oz. more of it for same money.

True Greatness.
True greatness, first of all, is a thing of the heart. It is all alive with robust and generous sympathies. It is neither behind its age nor too far ahead of it. It is up with its age, and ahead of it only just so far as to be able to lead its march. It cannot slumber, for activity is a necessity of its existence. It is no reservoir, but a fountain.—President Roosevelt.

Many Children Are Sickly.
Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, Cure Feverishness, Headache, Stomach Troubles, Teething Disorders, Break up Colds and Destroy Worms. At all Druggists, 25c. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Buried With Cherished Handkerchief.
With the handkerchief he used to dry his tears with when he was converted at a revival fifteen years ago Samuel S. Hand, a retired employee of the Pennsylvania Railroad Company, was buried.—Philadelphia Record.

The Present Rate Law.
The duties of the present Interstate Commerce Commission are to correct all discriminations in railroad rates. If it finds that an unjust rate is in effect, the railroad is notified. If it declines to change it, the Commission can bring suit in Court and if the Court decides in favor of the Commission's finding, the railroad must obey, or its officers may be brought up for contempt of court and summarily dealt with.

Chinese Fruit Farming.
All Chinese fruits are picked green and ripened off the plant. The Chinese farmer is too anxious to sell his crop or too much afraid of thieves to wait until the fruit is properly ripened.

BABY'S AWFUL ECZEMA.

Face Like Raw Beef—Thought She Would Lose Her Ear—Healed Without a Blemish—Mother Thanks Cuticura.

"My little girl had eczema very bad when she was ten months old. I thought she would lose her right ear. It had turned black, and her face was like a piece of raw meat, and very sore. It would bleed when I washed her, and I had to keep cloths on it day and night. There was not a clear spot on her face when I began using Cuticura Soap and Ointment, and now it is completely healed, without scar or blemish, which is more than I had hoped for. (Signed) Mrs. Rose Ether, 291 Eckford St., Brooklyn, N. Y."

Growth of Crystals.
There is no limit to the minuteness of fragments which may under favorable conditions grow into perfect crystals no bounds as to the time during which the crystalline growth may be suspended and then continue again.

THE SECRET OUT.

The Door Stands Wide Open.

To refute the many false and malicious attacks, bogus formulas and untruthful statements published concerning Doctor Pierce's World-famed Family Medicine the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for women and his equally popular tonic alternative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native roots, barks and herbs. The ingredients of the "Golden Medical Discovery" being Golden Seal root, Queen's root, Black-cherrybark, Mandrake root, Bloodroot.

Why is it so many have been strengthened and benefited by the tonic effect of Dr. Pierce's Golden Medical Discovery? It is because at this time of the year people feel run-down, nerveless, sleepless and worn out. Poisons have accumulated in their body during the long winter. Their blood stores up a lot of waste product which poisons the system. That is why in the spring and early summer a tonic is almost a necessity. Dr. Pierce's Golden Medical Discovery being made of medicinal plants, is next to nature and the best tonic you can use. For the same reason that vegetables and greens are good for the system at this time of the year, so is it true that a tonic made up entirely of medicinal plants, without the use of alcohol, is the proper medicine to take at this time. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. He is not afraid to open his laboratory to the public, and he invites every one to visit his Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., to see how systematically the sick are taken care of and cured, as well as looking over his huge laboratory and seeing the scientific methods of preparing this wonderful tonic. Neither man nor

ALL BROKEN DOWN.

No Sleep—No Appetite—Just a Continual Backache.

Joseph McCauley, of 144 Sholto street, Chicago, Sackem of Tecumseh Lodge, says: "Two years ago my health was completely broken down. My back ached and was so lame that at times I was hardly able to dress myself. I lost my appetite and was unable to sleep. There seemed to be no relief until I took Doan's Kidney Pills; but four boxes of this remedy effected a complete and permanent cure. If suffering humanity knew the value of Doan's Kidney Pills they would use nothing else, as it is the only positive cure I know."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.

Help Serbian Farmers.
There are no less than 540 agricultural societies scattered over Serbia which distribute modern agricultural machinery and implements among the farmers. These societies have a central office at Belgrade.

Talking machines.—Victor and Edison are the best; cash or payments, \$1 weekly. Write to-day. JENKINS' MUSIC CO., KANSAS CITY, MO. 30,000 records in stock. Mention this paper.

The train of thought rushed through one's brain is of little good when the conductor won't obey orders.

Miserable Conditions
Of body and mind, always result from a torpid liver, which leads to bile poisons being absorbed into the blood, and poisoning all the nerves and tissues. This dreadful state, some of the symptoms of which are headache, bitter taste, nausea, lack of appetite, yellow complexion, constipation, etc., can be quickly cured by taking Dr. Caldwell's (laxative) Syrup Pepsin. It relieves the strain on your liver, relaxes the tightened bowels, purifies the blood, strengthens the stomach, and makes it as clean as a whistle. The result is perfect health, and freedom from pain and discomfort. Try it. Sold by all druggists at 50c and \$1.00. Money back if it fails.

Donates Library to Town.
John Q. Packard a rich Californian, is having a \$75,000 library building erected for Marysville, Cal., because he got his "start in life" there.

Why It Is the Best
Is because made by an entirely different process. Defiance Starch is unlike any other, better and one-third more for 10 cents.

Keeping a man down that there's anything in will give him the benefit of his reward.

A Marvel of Relief
St. Jacobs Oil
Safe and sure for
Lumbago
and
Sciatica
It is the specific virtue of penetration in this remedy that carries it right to the pain spot and effects a prompt cure.

THE SECRET OUT.
The Door Stands Wide Open.
To refute the many false and malicious attacks, bogus formulas and untruthful statements published concerning Doctor Pierce's World-famed Family Medicine the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for women and his equally popular tonic alternative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native roots, barks and herbs. The ingredients of the "Golden Medical Discovery" being Golden Seal root, Queen's root, Black-cherrybark, Mandrake root, Bloodroot.
Why is it so many have been strengthened and benefited by the tonic effect of Dr. Pierce's Golden Medical Discovery? It is because at this time of the year people feel run-down, nerveless, sleepless and worn out. Poisons have accumulated in their body during the long winter. Their blood stores up a lot of waste product which poisons the system. That is why in the spring and early summer a tonic is almost a necessity. Dr. Pierce's Golden Medical Discovery being made of medicinal plants, is next to nature and the best tonic you can use. For the same reason that vegetables and greens are good for the system at this time of the year, so is it true that a tonic made up entirely of medicinal plants, without the use of alcohol, is the proper medicine to take at this time. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. He is not afraid to open his laboratory to the public, and he invites every one to visit his Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., to see how systematically the sick are taken care of and cured, as well as looking over his huge laboratory and seeing the scientific methods of preparing this wonderful tonic. Neither man nor woman can be handsome who has impurities in the blood, for it will show in pimples, boils, and eruptions, in the dark circles under the eyes and in the sallow complexion. After taking "Golden Medical Discovery" you are bound to have pink cheeks and a fresh complexion. The muscles get the good, rich, red blood, that puts on strength. It is a flesh builder, but not a fat builder.
As an example of the good results thus obtained, note the following letter:
"In the year 1899, I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal, bowels as large as a man's two fingers passed and I had a great deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the "Golden Medical Discovery" I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since."

Dr. Pierce's
Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists. **Pellets.**
The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.
